Physiographic divisions of the NW region of India. Source: R. Vaidyanadhan (1968), National Atlas of India, 1964.
About Our Project
- **OUR FOCUS:-** Social impact and sustainability, Analyzing heat temperatures in the Indian subcontinent affected by El Nino and La Nina

- **OUR AIM:-** Global warming's impact on the Greenbelt development region (particularly N-W Bharat) using meteorological department data, through new machine learning models through new parameters.

Introduction

Your SDG progress report can start with a brief review of your organization's alignment to the Global Goals. It can include the social responsibility and business case for taking action on the SDGs.

Creating a good SDG progress report means being transparent with your audience. Back up your claims with relevant data. Keep your sentences concise when necessary, but dive into detail when it comes to qualitative and quantitative evidence. Remember: this report is a combination of understanding how your mission aligns with global sustainability efforts, and communicating that clearly with the rest of the world.

OUR TEAM

Priority SDGs

There are 17 SDGs and 169 targets in total. While they are all important and interrelated, some will be more relevant to your business than others. This section can identify the specific SDGs and targets your organization is prioritizing, and demonstrate how they align with your own business strategy and goals.

3 GOOD HEALTH AND WELL-BEING

Priority SDG

To help give your audience an overview, this section can include a brief description of the goal, its relevance to your sector or industry, and the specific sub-targets your organization is addressing.

13 CLIMATE ACTION

Priority SDG

To help give your audience an overview, this section can include a brief description of the goal, its relevance to your sector or industry, and the specific sub-targets your organization is addressing.

14 LIFE BELOW WATER

Priority SDG

To help give your audience an overview, this section can include a brief description of the goal, its relevance to your sector or industry, and the specific sub-targets your organization is addressing.

Next Steps

Setting up the monitory terms with partners for data and advisory usage to the affected people

Action

Through our actions, we aim to help reduce NDRF stress on their physical and financial powers ultimately reducing economic downfall by La-Nina induced droughts and El-Nino brought cyclones

Commitment

We stand on through our commitment on sustainability by keeping SDGs goals 14,13 & 17

Commitment

Social impact and sustainability, Analyzing heat temperatures in the Indian subcontinent affected by El Nino and La Nina
